

Due to conditions relating to copyright and licensing, historic copies of the Bromsgrove Messenger are no longer available via this website.

As of December 2020, the Messenger can be accessed via the [British Newspaper Archive](#) and [Findmypast](#)

, which are both subscription websites. The new, high-resolution digital scans are far superior to the images that were previously available here and are fully searchable. This project was undertaken by the Bromsgrove Society in partnership with the L.G. Harris Trust. Currently, editions from 1860 through to 1913 are available and further scanning is being considered.

The previous scans are no longer available, **please do not contact us about them.**
